

Seismic Performance Improvement and Energy Optimization for Structures

Guest Editors:

Prof. Dr. Dora Foti

Department of Architecture,
Construction and Design,
Polytechnic of Bari, Via Orabona,
4, 70125 Bari, Italy

Dr. Ramon Gonzalez-Drigo

Department of Structural
Engineering, Universitat
Politecnica de Catalunya, UPC,
Barcelona, Spain

Dr. Michela Lerna

Politecnico di Bari, DICAR, Bari,
Italy

Deadline for manuscript
submissions:
closed (31 October 2022)

Message from the Guest Editors

The Special Issue focuses on the use of:

- Nondestructive methods based on sensor technology, data processing techniques, and analysis methods to get an extensive knowledge of the structural health and the operative conditions of buildings and structures;
- Choice of the optimal type of intervention for improving the performance of the structure in a seismic area, thus leading to the most appropriate control strategy and refurbishment provision, including innovative protection technologies, as effective solutions to respond to the constantly increasing performance requirements in structural design and rehabilitation.

At the same time, the Issue invites papers on new and challenging research perspectives related to the improvement of the energy efficiency capacity of structures, very important today to reduce the energy costs of a building.

an Open Access Journal by MDPI

Editor-in-Chief

Dr. Pedro Arias-Sánchez

Applied Geotechnologies Group,
Department of Natural Resources
and Environmental Engineering,
School of Mining Engineering,
University of Vigo, 36310 Vigo,
Spain

Message from the Editor-in-Chief

You are invited to contribute a research article, review or short communication for consideration and publication in *Infrastructures* (ISSN 2412-3811). There is no restriction on the length of the papers. *Infrastructures* is published in open access format. The scientific community and general public have unlimited free access to the content as soon as it is published. *Infrastructures* is supported by the authors by the payment of article processing charges for accepted manuscripts. Please consider *Infrastructures* as an exceptional opportunity to publish your work.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, ESCI (Web of Science), Inspec, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Civil*) / CiteScore - Q1 (Building and Construction)
