

Special Issue

Recent Advances in Railway Engineering

Message from the Guest Editors

This Special Issue, in the journal *Infrastructures* (MDPI), aims to provide a premier international forum for a wide range of professions, including academics, researchers, and industry professionals, to discuss and present the most recent challenges and developments in "Recent Advances in Railway Engineering." This Special Issue invites contributions of original, high-quality research (research and review papers are also welcome). The papers' subjects may range from the railway vehicle across the track to the subsoil, but they are all related to the engineering (preferably—but not limited to—civil, mechanical, electrical, transportation and environmental engineering) field. The papers may include the results of modern laboratory tests, field/in situ tests, numerical modeling, railway diagnostics, etc. We anticipate that this Special Issue will "pave the way" for new research and technological advancements in this vital field.

Guest Editors

Prof. Dr. Szabolcs Fischer

Dr. Dragan Zoran Marinkovic

Dr. Mykola Sysyn

Prof. Dr. Dmytro Kurhan

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article, review or short communication for consideration and publication in *Infrastructures* (ISSN 2412-3811). There is no restriction on the length of the papers. *Infrastructures* is published in open access format. The scientific community and general public have unlimited free access to the content as soon as it is published. *Infrastructures* is supported by the authors by the payment of article processing charges for accepted manuscripts. Please consider *Infrastructures* as an exceptional opportunity to publish your work.

Editor-in-Chief

Dr. Pedro Arias-Sánchez

Applied Geotechnologies Group, Department of Natural Resources and Environmental Engineering, School of Mining Engineering, University of Vigo, 36310 Vigo, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Inspec, and other databases.

Journal Rank:

JCR - Q2 (Construction and Building Technology) /
CiteScore - Q1 (Building and Construction)
