

## Special Issue

# Technological and Digital Innovation in Structural Health Monitoring of Civil Structures and Infrastructures

### Message from the Guest Editors

This Special Issue invites high-quality contributions addressing the current state of the art, recent developments, and future perspectives in the field of the SHM of civil structures and infrastructures in a digitalizing world. The topics of interest include, but are not limited to:

- development of new methodologies for the signal processing of experimental data;
- development of new forms of data-driven surrogate models, based on the most recent advances in artificial intelligence, neural networks, and machine learning;
- online and real-time management of continuously monitored physical quantities;
- compensation of environmental and operating variations (EOV) from the measured quantities;
- emerging technologies for monitoring civil structures and infrastructures, e.g., indirect and remote SHM;
- SHM-driven management of civil structures and infrastructures, including value of information analysis.

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article, review or short communication for consideration and publication in *Infrastructures* (ISSN 2412-3811). There is no restriction on the length of the papers. *Infrastructures* is published in open access format. The scientific community and general public have unlimited free access to the content as soon as it is published. *Infrastructures* is supported by the authors by the payment of article processing charges for accepted manuscripts. Please consider *Infrastructures* as an exceptional opportunity to publish your work.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, ESCI (Web of Science), Inspec, and other databases.

#### Journal Rank:

JCR - Q2 (Construction and Building Technology) /  
CiteScore - Q1 (Building and Construction)
