

## Special Issue

# Sustainable Low-Carbon Road Pavement Infrastructure: Methods and Challenges

### Message from the Guest Editors

This Special Issue explores various methods, innovations, and challenges associated with achieving low-carbon, sustainable pavement infrastructure. The main reasons for publishing this Special Issue are:

- Environmental Concerns: This Special Issue helps to find sustainable solutions in pavement infrastructure by focusing on low-carbon technologies, given the importance of reducing carbon emissions and mitigating climate change;
- Research Advances: The Special Issue presents the latest research and innovations in sustainable pavement design, materials, and construction methods;
- Policy Relevance: This Special Issue can help policymakers and industry stakeholders make informed decisions by presenting evidence-based research and case studies;
- Economic Implications: This Special Issue explores the economic implications of adopting low-carbon pavement technologies;
- Interdisciplinary Insights: Addressing sustainability in pavement infrastructure requires a multidisciplinary approach;
- Knowledge Sharing: The research community can share best practices, lessons learned, and case studies from different regions and contexts here.

### Guest Editors

Dr. Shahin Eskandarsefat

Senior Researcher, Iterchimica S.p.A, Via Guglielmo Marconi 21, 24040 Suisio, Italy

Dr. Pouria Hajikarimi

Assistant Professor, Department of Civil & Environmental Engineering, Amirkabir University of Technology (Tehran Polytechnic), Tehran, Iran

### Deadline for manuscript submissions

closed (31 March 2025)

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article, review or short communication for consideration and publication in *Infrastructures* (ISSN 2412-3811). There is no restriction on the length of the papers. *Infrastructures* is published in open access format. The scientific community and general public have unlimited free access to the content as soon as it is published.

*Infrastructures* is supported by the authors by the payment of article processing charges for accepted manuscripts. Please consider *Infrastructures* as an exceptional opportunity to publish your work.

---

### Editor-in-Chief

Dr. Pedro Arias-Sánchez

Applied Geotechnologies Group, Department of Natural Resources and Environmental Engineering, School of Mining Engineering, University of Vigo, 36310 Vigo, Spain

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, ESCI (Web of Science), Inspec, and other databases.

#### Journal Rank:

JCR - Q2 (Construction and Building Technology) /  
CiteScore - Q1 (Building and Construction)
