

Special Issue

Advances in the Management and Application of Construction and Demolition Waste

Message from the Guest Editors

I encourage you to send your contributions examining how to achieve sustainable construction, and especially your studies on the use and application of aggregates from construction and demolition waste to the production of construction materials. The list of topics includes (but is not strictly limited to):

- Treatment of construction and demolition waste;
- Applications of recycled aggregates to construction;
- Mortars and concretes made with recycled aggregate;
- Circular economy applied to the building;
- Reverse logistics applied to the construction sector;
- Clean production in the construction sector;
- Models and simulations for efficient coatings;
- Precast construction with CDW incorporation;
- Management of construction works to achieve the objectives for sustainable development;
- New eco-friendly construction materials;
- Technology innovation in sustainable building

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article, review or short communication for consideration and publication in *Infrastructures* (ISSN 2412-3811). There is no restriction on the length of the papers. *Infrastructures* is published in open access format. The scientific community and general public have unlimited free access to the content as soon as it is published.

Infrastructures is supported by the authors by the payment of article processing charges for accepted manuscripts. Please consider *Infrastructures* as an exceptional opportunity to publish your work.

Editor-in-Chief

Dr. Pedro Arias-Sánchez

Applied Geotechnologies Group, Department of Natural Resources and Environmental Engineering, School of Mining Engineering, University of Vigo, 36310 Vigo, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Inspec, and other databases.

Journal Rank:

JCR - Q2 (Construction and Building Technology) /
CiteScore - Q1 (Building and Construction)
