

Special Issue

Frozen Soil Engineering Disasters: A Geosynthetics Solution

Message from the Guest Editors

In this Special Issue, we invite high-quality original research papers that focus on state-of-the-art techniques and methods in the design, construction, and analysis of geosynthetics. We welcome both theoretical and applied papers of a high technical standard across different disciplines, thus facilitating awareness of techniques and methods in one area that may be applicable to other areas. We seek high-quality submissions of original research and review articles on all aspects of geosynthetic engineering with potential for practical application. Topics of interest include, but are not limited to, the following:

- Manufacturing technology for advanced geosynthetics;
- Development of intelligent geosynthetics;
- Geosynthetics-soil interaction in extreme environments;
- Climatic and environmental effects of geosynthetics-related works;
- Geosynthetics in cold regions;
- Education related to geosynthetics.

Guest Editors

Dr. Pengfei He

Dr. Wenhua Fan

Dr. Yang Lu

Prof. Dr. Jianhua Dong

Deadline for manuscript submissions

closed (30 June 2025)

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article, review or short communication for consideration and publication in *Infrastructures* (ISSN 2412-3811). There is no restriction on the length of the papers. *Infrastructures* is published in open access format. The scientific community and general public have unlimited free access to the content as soon as it is published.

Infrastructures is supported by the authors by the payment of article processing charges for accepted manuscripts. Please consider *Infrastructures* as an exceptional opportunity to publish your work.

Editor-in-Chief

Dr. Pedro Arias-Sánchez

Applied Geotechnologies Group, Department of Natural Resources and Environmental Engineering, School of Mining Engineering, University of Vigo, 36310 Vigo, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Inspec, and other databases.

Journal Rank:

JCR - Q2 (Construction and Building Technology) /
CiteScore - Q1 (Building and Construction)
