

# Special Issue

## Air Traffic Management: Airport Operations

### Message from the Guest Editors

The aim of this Special Issue is to gather meaningful contribution to the literature regarding the management and optimization of airports operations, with a particular focus in the use of operation research, Artificial Intelligence, data science, simulation and optimization techniques, both when considering a single airport but also in terms of cooperation among multiple ones. As such, this Special Issue covers topics including but not limited to the following:

- Airport efficiency
- Optimization of take-off and landing operation management
- Green operations
- Handling of uncertainty in airport operations
- Passenger connection management
- Disruption management both from airlines and air traffic control perspectives
- Gate assignment
- Taxing and ground operations and possible delay strategies
- Baggage and cargo management
- Check-in operations and crowd management
- Airlines hub-and-spoke networks
- Inter-modality passengers and cargo connectivity

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article, review or short communication for consideration and publication in *Infrastructures* (ISSN 2412-3811). There is no restriction on the length of the papers. *Infrastructures* is published in open access format. The scientific community and general public have unlimited free access to the content as soon as it is published. *Infrastructures* is supported by the authors by the payment of article processing charges for accepted manuscripts. Please consider *Infrastructures* as an exceptional opportunity to publish your work.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, ESCI (Web of Science), Inspec, and other databases.

#### Journal Rank:

JCR - Q2 (Construction and Building Technology) /  
CiteScore - Q1 (Building and Construction)
