

Special Issue

Infrastructures for Smart Cities

Message from the Guest Editors

This Special Issue aims to publish high-quality research papers as well as state-of-the-art review articles that focus on the resiliency and sustainability aspects in designing, building and managing infrastructures. The papers in this Special Issue should be focused on various advances that have taken place worldwide in resilient and sustainable infrastructure technologies for smart cities. We would like to invite you to contribute to a Special Issue of MDPI's *Infrastructures* on infrastructures for smart cities. This Special Issue is very timely and will encompass the following, but not limited to, emerging topics: Design of buildings and infrastructures for smart cities; Smart sensors for the home, buildings and infrastructures; Innovative building maintenance management systems; Optimized infrastructure asset management systems; Infrastructure governance; Sustainable pavements, roads and bridges; Resilient underground pipes and structures; Clean air and air quality monitoring systems; Sustainable parks and recreation facilities; Clean water and efficient distribution systems; Smart energy metering and power grids;

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article, review or short communication for consideration and publication in *Infrastructures* (ISSN 2412-3811). There is no restriction on the length of the papers. *Infrastructures* is published in open access format. The scientific community and general public have unlimited free access to the content as soon as it is published. *Infrastructures* is supported by the authors by the payment of article processing charges for accepted manuscripts. Please consider *Infrastructures* as an exceptional opportunity to publish your work.

Editor-in-Chief

Dr. Pedro Arias-Sánchez

Applied Geotechnologies Group, Department of Natural Resources and Environmental Engineering, School of Mining Engineering, University of Vigo, 36310 Vigo, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Inspec, and other databases.

Journal Rank:

JCR - Q2 (Construction and Building Technology) /
CiteScore - Q1 (Building and Construction)
