

Special Issue

Smart Cities and Infrastructures

Message from the Guest Editors

The sustainable and resilient management of smart cities is becoming a key challenge worldwide. The objective of this Special Issue of MDPI's *Infrastructures* is to compile and archive technological and managerial innovations for designing and managing sustainable and resilient smart cities, which include smart sensors, buildings, pavements, infrastructures, and systems. Papers are sought in the following areas:

- Smart pavements, roads and bridges;
- Smart sensors for homes, buildings, and infrastructures;
- Smart building maintenance management systems;
- Smart infrastructure asset management systems;
- Smart underground pipes and structures;
- Clean air and air quality monitoring systems;
- Smart parks and recreation facilities;
- Clean water and efficient distribution systems;
- Smart energy metering and power grids;
- Autonomous and efficient transportation;
- Smart parking meters and operations;
- e-Government;
- Smart video surveillance and crime prevention systems;
- Smart disaster prevention and response;
- Smart big data and life-cycle analysis;
- Operation, maintenance, and safety of smart cities;
- Smart city and urban planning.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article, review or short communication for consideration and publication in *Infrastructures* (ISSN 2412-3811). There is no restriction on the length of the papers. *Infrastructures* is published in open access format. The scientific community and general public have unlimited free access to the content as soon as it is published.

Infrastructures is supported by the authors by the payment of article processing charges for accepted manuscripts. Please consider *Infrastructures* as an exceptional opportunity to publish your work.

Editor-in-Chief

Dr. Pedro Arias-Sánchez

Applied Geotechnologies Group, Department of Natural Resources and Environmental Engineering, School of Mining Engineering, University of Vigo, 36310 Vigo, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Inspec, and other databases.

Journal Rank:

JCR - Q2 (Construction and Building Technology) /
CiteScore - Q1 (Building and Construction)
