Special Issue

Sustainability of Concrete Infrastructures: New Applications, Monitoring and Retrofitting

Message from the Guest Editors

In this Special Issue, we invite the publication of original research and review papers, experimental and/or numerical investigations on the sustainability of concrete infrastructures. Both new sustainable materials, design projects or monitoring and retrofitting of existing infrastructures will be of interest for the Special Issue. Topics of interest include, but are not limited to:

- Design of new concrete infrastructures;
- New sustainable and/or recycled materials and mixture design;
- Advanced design and assessment techniques;
- Case studies;
- Monitoring, maintenance and retrofitting of infrastructures;
- Advances in sustainable infrastructures, as well as socio-economical aspects.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article, review or short communication for consideration and publication in *Infrastructures* (ISSN 2412-3811). There is no restriction on the length of the papers. *Infrastructures* is published in open access format. The scientific community and general public have unlimited free access to the content as soon as it is published. *Infrastructures* is supported by the authors by the payment of article processing charges for accepted manuscripts. Please consider *Infrastructures* as an exceptional opportunity to publish your work.

Editor-in-Chief

Dr. Pedro Arias-Sánchez

Applied Geotechnologies Group, Department of Natural Resources and Environmental Engineering, School of Mining Engineering, University of Vigo, 36310 Vigo, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Inspec, and other databases.

Journal Rank:

JCR - Q2 (Construction and Building Technology) / CiteScore - Q1 (Building and Construction)
