

## Special Issue

# State-of-the-Art Inorganic Chemistry in Japan

### Message from the Guest Editors

This regional Special Issue focuses on new frontiers of inorganic chemistry in Japan. You are cordially invited to submit original articles, communications, and critical reviews. Submissions from across the full scope of inorganic chemistry research are most welcome. Topics include, but are not limited to, the following research areas:

- Coordination chemistry;
- Organometallic chemistry;
- Bioinorganic chemistry;
- Solid-state chemistry;
- Inorganic materials;
- MOFs (metal-organic frameworks);
- Energy;
- Catalysis (including photo- and electro-catalysis);
- Photochemistry;
- Theory and computation.
- Other topics based on inorganic chemistry.

---

### Guest Editors

Prof. Dr. Yuichi Shimazaki

Graduate School of Science and Engineering, Ibaraki University,  
Bunkyo, Mito 310-8512, Japan

Prof. Dr. Tatsuo Yajima

Faculty of Chemistry, Materials and Bioengineering, Kansai University,  
Yamate-cho, Suita 564-8680, Japan

---

### Deadline for manuscript submissions

30 September 2026

## About the Journal

### Message from the Editor-in-Chief

Inorganic chemistry remains a lynchpin of modern chemistry, not only embracing the function and reactivity of combinations of most elements of the periodic table, but also providing a footing for studies of materials, catalysts, drugs, fuels and industrial chemicals. Arguably, the role and reach of inorganics in society have never been as great as today. Adventurous research at the heart and at the extremes of inorganic chemistry is vital to further advances and Inorganics offers authors the opportunity to publish exciting new research in an open access format.

---

### Editor-in-Chief

Prof. Dr. Duncan H. Gregory

School of Chemistry, University of Glasgow, University Avenue, Glasgow G12 8QQ, UK

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Chemistry, Inorganic and Nuclear) / CiteScore - Q2 (Inorganic Chemistry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2025).
