

Special Issue

Featured Papers in Inorganic Materials 2024

Message from the Guest Editors

It is with great pleasure that we are cordially inviting colleagues and experts in the field of inorganic materials to submit original articles and critical reviews describing the production of inorganic materials following alternative ecofriendly methods, new protocols and strategies for the reuse of inorganic materials, and newly emerging areas of interest involving the sustainable use of inorganic materials. **Keywords:**

- batteries
- bio-inspired materials
- catalysis
- carbon dioxide storage and conversion
- electrochemistry
- energy storage devices
- environmental remediation
- fuel cells
- hybrid materials
- hydrogen storage
- nano-composites
- nanomaterials
- photo(electro)catalysis
- photovoltaics
- renewable energy
- sensing
- smart materials
- stimuli-responsive materials
- value-added inorganic materials from waste

Guest Editors

Dr. Roberto Nisticò

Department of Materials Science, University of Milano-Bicocca, U5,
INSTM, Via R. Cozzi 55, 20125 Milano, Italy

Prof. Dr. Torben R. Jensen

Department of Chemistry and Interdisciplinary Nanoscience Center,
Aarhus University, DK-8000 Aarhus, Denmark

Deadline for manuscript submissions

closed (20 February 2025)

About the Journal

Message from the Editor-in-Chief

Inorganic chemistry remains a lynchpin of modern chemistry, not only embracing the function and reactivity of combinations of most elements of the periodic table, but also providing a footing for studies of materials, catalysts, drugs, fuels and industrial chemicals. Arguably, the role and reach of inorganics in society have never been as great as today. Adventurous research at the heart and at the extremes of inorganic chemistry is vital to further advances and Inorganics offers authors the opportunity to publish exciting new research in an open access format.

Editor-in-Chief

Prof. Dr. Duncan H. Gregory

School of Chemistry, University of Glasgow, University Avenue, Glasgow

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Chemistry, Inorganic and Nuclear) / CiteScore - Q2 (Inorganic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.6 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2025).
