Inorganics Emerging Investigators Themed Collection

Message from the Guest Editors

The *Inorganics* Emerging Investigators Themed Collection aims to assemble a selection of the best research conducted by scientists in the early stages of their independent career. These promising young researchers have been recommended by the *Inorganics* Editorial Board, which has recognized them for conducting work that garners significant attention across the scientific community. Centered around the many different areas of modern inorganic chemistry and embracing interdisciplinary research in which inorganic chemistry plays a leading role, this collection aims to highlight the capabilities and promise of an emerging cohort of scientists in propelling the advancement of inorganic chemistry. Our objective is to provide a platform that showcases the outstanding contributions of these budding experts, highlighting innovation and pushing forward the development of their respective fields.

About the Journal

Message from the Editor-in-Chief

Inorganic chemistry remains a lynchpin of modern chemistry, not only embracing the function and reactivity of combinations of most elements of the periodic table, but also providing a footing for studies of materials, catalysts, drugs, fuels and industrial chemicals. Arguably, the role and reach of inorganics in society have never been as great as today. Adventurous research at the heart and at the extremes of inorganic chemistry is vital to further advances and Inorganics offers authors the opportunity to publish exciting new research in an open access format.

Editor-in-Chief

Prof. Dr. Duncan H. Gregory

School of Chemistry, University of Glasgow, University Avenue, Glasgow G12 8QQ, UK

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Chemistry, Inorganic and Nuclear) / CiteScore - Q2 (Inorganic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2025).
