

## Special Issue

# Copper(II) Complexes and Their Properties

### Message from the Guest Editors

This Special Issue invites original research and review articles focusing on copper(II) coordination compounds, including their structural characteristics, thermal behavior, and magnetic properties. We particularly welcome contributions reporting unusual or novel structures, as well as studies exploring their potential applications in materials science. Manuscripts addressing biomedical applications of copper coordination compounds are also strongly encouraged.

#### Keywords:

- coordination chemistry
- copper(II) complexes
- crystal structure
- thermal analysis
- magnetic properties
- antitumor drugs
- antibacterial agents

---

### Guest Editors

Dr. Matjaž Kristl

Faculty of Chemistry and Chemical Engineering, University of Maribor,  
Smetanova 17, SI-2000 Maribor, Slovenia

Dr. Brina Dojer

Faculty of Natural Sciences and Mathematics, University of Maribor,  
Koroška Cesta 160, SI-2000 Maribor, Slovenia

---

### Deadline for manuscript submissions

28 February 2026

## About the Journal

### Message from the Editor-in-Chief

Inorganic chemistry remains a lynchpin of modern chemistry, not only embracing the function and reactivity of combinations of most elements of the periodic table, but also providing a footing for studies of materials, catalysts, drugs, fuels and industrial chemicals. Arguably, the role and reach of inorganics in society have never been as great as today. Adventurous research at the heart and at the extremes of inorganic chemistry is vital to further advances and Inorganics offers authors the opportunity to publish exciting new research in an open access format.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Chemistry, Inorganic and Nuclear) / CiteScore - Q2 (Inorganic Chemistry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.6 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2025).
