

Special Issue

Plant–Insect Vector–Pathogen Interactions

Message from the Guest Editors

We invite you to contribute to this Special Issue that focuses on plant–insect vector–pathogen interactions. Literature shows that plant–insect–pathogen interactions are complex and are affected by multiple and intricate factors. This heterogenous research is rapidly evolving and has captured the attention of researchers from different backgrounds. Understanding the biology, ecology and behaviour of insects that act as vectors of plant pathogens is critical in the context of vector-borne diseases. This Special Issue seeks to gather knowledge and to attract researchers studying plant–insect–pathogen interactions at any level. Authors are welcomed to submit original research articles, perspectives, reviews, methodology and opinions.

About the Journal

Message from the Editor-in-Chief

Arthropods are a diverse and abundant group of animals that are important to a variety of research dictates. For example, hexapods act as bio-indicators of ecosystem function and pest status and serve as model systems for questions concerning physiology, embryology, genetics, and social interaction. The editorial board and staff at *Insects* is committed to providing contributors an open access forum to showcase objective and innovative research as well as succinct review articles. Our journal is dedicated to providing timely and thorough review of qualified submissions and we welcome you to submit a contribution.

Editor-in-Chief

Prof. Dr. Brian T. Forschler

Department of Entomology, University of Georgia, 413 Biological Sciences Building, Athens, GA 30602-2603, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, GEOBASE, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Entomology) / CiteScore - Q1 (Insect Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
