

## Special Issue

# Bee Health and Beehive Management in a Changing World

### Message from the Guest Editors

We live in a changing world where bees are being challenged by climate change, habitat loss, invasive species, pesticides, contaminants and pests, among others. Therefore, research studies and reviews on bee health, bee management practices, and bee pests are welcome for submission to this Special Issue of *Insects*. Papers that consider novel aspects of bee health and hive management, bee stressors and pests, as well as the impact of these on pollination are welcome. We welcome research papers studying all types of bees, including bumblebees, stingless, and solitary bees.

## About the Journal

### Message from the Editor-in-Chief

---

#### Editor-in-Chief

Prof. Dr. Brian T. Forschler

Department of Entomology, University of Georgia, 413 Biological  
Sciences Building, Athens, GA 30602-2603, USA

---

#### Author Benefits

##### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed,  
PMC, PubAg, and other databases.

##### Journal Rank:

JCR - Q1 (Entomology) / CiteScore - Q1 (Insect Science)

##### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 18.1 days after  
submission; acceptance to publication is undertaken in 2.9  
days (median values for papers published in this journal in  
the first half of 2025).
