

Special Issue

Bark and Wood-Boring Insects: Past and Present Research and Essential Future Knowledge— 2nd Edition

Message from the Guest Editors

A couple of years after our first Special Issue on “Bark and Wood-Boring Insects”, exciting recent advances in this field, coupled with constantly increasing concern over how these species respond to climate change, mean that it is time for a second and even more comprehensive edition. This Special Issue will assemble studies and advances on bark and wood-boring insects, exploring topics range from systematics and population dynamics to invasion pathways and, ultimately, management strategies aiming to reduce impacts on forests worldwide. With this in mind, we welcome manuscripts on the phylogeography, population genetics, and dynamics of bark and wood-boring insects; solutions to the invasion pathways that result from their expansion beyond their natural distribution, natural enemies, and role in population dynamics; and, finally, evaluations of management approaches that can assist in mitigating the detrimental effects of population outbreaks.

Guest Editors

Prof. Dr. Ferenc Lakatos

Institute of Forest and Natural Resource Management, Faculty of Forestry, University of Sopron, Bajcsy-Zs. u. 4., 9400 Sopron, Hungary

Dr. Dimitrios N. Avtzis

Forest Research Institute, Hellenic Agricultural Organization Demeter, Vasilika, 57006 Thessaloniki, Greece

Deadline for manuscript submissions

15 November 2025

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Brian T. Forschler
Department of Entomology, University of Georgia, 413 Biological
Sciences Building, Athens, GA 30602-2603, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed,
PMC, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Entomology) / CiteScore - Q1 (Insect Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 18.1 days after
submission; acceptance to publication is undertaken in 2.9
days (median values for papers published in this journal in
the first half of 2025).
