

Special Issue

Arthropod Education

Message from the Guest Editors

Arthropods make up approximately 75% of all known species. Even though the majority of Earth's species are arthropods very little research has been conducted to assess the use of arthropods in educational settings until recently. Research in arthropod education addresses the use of arthropods or information about arthropods in any formal or informal educational setting. The field of arthropod education research is a new area of study where meaningful and relevant scholarship is being conducted. This special issue will focus on research that addresses any aspect of arthropod education and will bring together the top experts in the field.

Guest Editors

Dr. Ron Wagler

STEM Education Division, The University of Texas at El Paso, El Paso, TX, USA

Dr. Doug Golick

Department of Entomology, University of Nebraska-Lincoln, Lincoln, NE 68588, USA

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Brian T. Forschler
Department of Entomology, University of Georgia, 413 Biological
Sciences Building, Athens, GA 30602-2603, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed,
PMC, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Entomology) / CiteScore - Q1 (Insect Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 18.1 days after
submission; acceptance to publication is undertaken in 2.9
days (median values for papers published in this journal in
the first half of 2025).
