

## Special Issue

# Women's Special Issue Series: Insects

### Message from the Guest Editors

The journal "Insects" is launching a Special Issue on the "Contributions of Female Scientists to the Advancement of Insect Science" to highlight the achievements made by women to any areas of insect science. Outstanding research papers and review articles will be included in this Special Issue. We encourage contributions of persons who identify as a woman as the lead author is a woman, and the main goal of this Special Issue is to highlight and celebrate women in science and their advancement and success in the entomological field, reached by important publications. However, we welcome submissions from all authors, irrespective of gender identity.
