

Special Issue

Genomics and Molecular Biology in Silkworm

Message from the Guest Editors

Significant progress has been made in research on silkworm molecular biology since the first genomic sequences were publicized 20 years ago. The identification of genes related to development and metamorphosis, immune defense, sex determination, silk synthesis, and nutrition utilization is not only important for the silk industry but also beneficial for the control of lepidopterous pests. In this Special Issue, we welcome manuscripts that report recent discoveries and review key subject areas in the field of “Genomics and Molecular Biology in Silkworm”.

Guest Editors

Prof. Dr. Genhong Wang

Integrative Science Center of Germplasm Creation in Western China (Chongqing) Science City, Chongqing Technology Innovation Center of Breeding, Biological Science Research Center, Southwest University, Chongqing 400715, China

Dr. Zuoming Nie

About the Journal

Message from the Editor-in-Chief

Arthropods are a diverse and abundant group of animals that are important to a variety of research dictates. For example, hexapods act as bio-indicators of ecosystem function and pest status and serve as model systems for questions concerning physiology, embryology, genetics, and social interaction. The editorial board and staff at *Insects* is committed to providing contributors an open access forum to showcase objective and innovative research as well as succinct review articles. Our journal is dedicated to providing timely and thorough review of qualified submissions and we welcome you to submit a contribution.

Editor-in-Chief

Prof. Dr. Brian T. Forschler

Department of Entomology, University of Georgia, 413 Biological Sciences Building, Athens, GA 30602-2603, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, GEOBASE, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Entomology) / CiteScore - Q1 (Insect Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
