

Special Issue

Taxonomy of Psylloidea

Message from the Guest Editors

From ancient to recent diversification, this Special Issue seeks to elevate our current knowledge of species richness and biological interactions in the super family Psylloidea. Although our primary focus is on alpha taxonomy and the description of new species, we also welcome reviews and systematic revisions, while the inclusion of molecular data is encouraged, but not required. We invite contributions from researchers active in psyllid taxonomy in areas including, but not limited to, the following:

- Species descriptions, including fossils;
- Systematic revisions;
- Taxonomic reviews;
- Faunal treatments with identification keys;
- Annotated checklists.

Guest Editors

Dr. Diana M. Percy

Botany Department and Biodiversity Research Centre, University of British Columbia, Vancouver, BC V6T 1Z4, Canada

Dr. Daniel Burckhardt

Naturhistorisches Museum, 4001 Basel, Switzerland

Deadline for manuscript submissions

31 March 2027

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Brian T. Forschler

Department of Entomology, University of Georgia, 413 Biological
Sciences Building, Athens, GA 30602-2603, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed,
PMC, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Entomology) / CiteScore - Q1 (Insect Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 18.1 days after
submission; acceptance to publication is undertaken in 2.9
days (median values for papers published in this journal in
the first half of 2025).
