

## Special Issue

# Impact of Environmental Factors and Management Practices on Bee Health

### Message from the Guest Editors

This Special Issue deals with different stressors of global importance which are reducing the number of honeybee and bumblebee colonies as well as *Osmia* spp. solitary bees. Many factors, such as the presence of pathogens, pests, predators, invasive species, nest destructors, negative environmental drivers, agricultural intensification, habitat loss, and managing practices, are reported as the main causes of bee depopulation and losses in rearing operations and apiaries. We would like to publish articles focusing on the impact of environmental factors and management practices on bee health. Therefore, we are searching for papers focusing on the novel epidemiology studies, diagnostic tools and technologies, monitoring programs, managing practices, biosecurity-control-eradication measures, and disinfection methods as well as development of new bee disease control strategies.

### Guest Editors

Prof. Dr. Ivana Tlak Gajger

Department for Biology and Pathology of Fish and Bees, Faculty of Veterinary Medicine, University of Zagreb, Zagreb, Croatia

Dr. Franco Mutinelli

National Reference Laboratory for Honey Bee Health, Istituto Zooprofilattico Sperimentale delle Venezie, Viale dell'Università 10, 35020 Legnaro, Italy

### Deadline for manuscript submissions

closed (1 October 2024)

## About the Journal

### Message from the Editor-in-Chief

---

#### Editor-in-Chief

Prof. Dr. Brian T. Forschler

Department of Entomology, University of Georgia, 413 Biological  
Sciences Building, Athens, GA 30602-2603, USA

---

#### Author Benefits

##### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed,  
PMC, PubAg, and other databases.

##### Journal Rank:

JCR - Q1 (Entomology) / CiteScore - Q1 (Insect Science)

##### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 18.1 days after  
submission; acceptance to publication is undertaken in 2.9  
days (median values for papers published in this journal in  
the first half of 2025).
