

# Special Issue

## Research and Advances in Acarology

### Message from the Guest Editors

The continuous expansion of mites and ticks around the globe represents an agricultural and public health challenge. Studying fundamental biological and ecological traits is critical to developing sustainable management strategies in agricultural settings and understanding the epidemiology of vector-borne diseases. This Special Issue on “Research and Advances in Acarology” will consider all original research articles, reviews, mini-reviews, and perspectives on basic and applied research of mites and ticks for publication after rigorous peer review.

## About the Journal

### Message from the Editor-in-Chief

---

#### Editor-in-Chief

Prof. Dr. Brian T. Forschler  
Department of Entomology, University of Georgia, 413 Biological  
Sciences Building, Athens, GA 30602-2603, USA

---

#### Author Benefits

##### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed,  
PMC, PubAg, and other databases.

##### Journal Rank:

JCR - Q1 (Entomology) / CiteScore - Q1 (Insect Science)

##### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 18.1 days after  
submission; acceptance to publication is undertaken in 2.9  
days (median values for papers published in this journal in  
the first half of 2025).
