

Special Issue

Contributions of Women in Insect Science

Message from the Guest Editors

To emphasize women's contributions to the field of insect science, the journal *Insects* is launching a Special Issue on “Contributions of Female Scientists to the Advancement of Insect Science”, which will be published in *Insects* (ISSN 2075-4450, <https://www.mdpi.com/journal/insects>) in 2022. This Special Issue will include high-quality research papers and review articles in basic areas of insect science. We invite insect scientists from around the world to share either their original research led by female scientist(s) or up-to-date reviews highlighting the leading role of women in the advancement of the field. We are particularly interested in contributions of women in the basic aspects of insect biology.

Guest Editors

Dr. Christen Mirth

School of Biological Science, Monash University, Melbourne, VIC 3800, Australia

Prof. Dr. Lynn M. Riddiford

Friday Harbor Laboratories and Department of Biology, University of Washington, Friday Harbor, WA 98250, USA

Deadline for manuscript submissions

closed (30 November 2022)

About the Journal

Message from the Editor-in-Chief

Arthropods are a diverse and abundant group of animals that are important to a variety of research dictates. For example, hexapods act as bio-indicators of ecosystem function and pest status and serve as model systems for questions concerning physiology, embryology, genetics, and social interaction. The editorial board and staff at *Insects* is committed to providing contributors an open access forum to showcase objective and innovative research as well as succinct review articles. Our journal is dedicated to providing timely and thorough review of qualified submissions and we welcome you to submit a contribution.

Editor-in-Chief

Prof. Dr. Brian T. Forschler

Department of Entomology, University of Georgia, 413 Biological Sciences Building, Athens, GA 30602-2603, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, GEOBASE, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Entomology) / CiteScore - Q1 (Insect Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
