

## Special Issue

# Ecology and Management of Forest Insects in a Changing World

### Message from the Guest Editors

Climate change, disturbance events, invasive species, and patterns of land use are among key drivers that interact to impact the distribution, abundance, and evolution of forest insects in a changing world. This Special Issue of *Insects* will broadly address the effects of global change on ecology and management of insects along a gradient of wilderness, managed, plantation, and urban forests. We invite submissions, including reviews and primary research reports, that address effects and implications of environmental change on insects in forest ecosystems including community and population ecology, biodiversity and conservation, biological invasions, ecosystem services, and pest management.

---

### Guest Editors

Dr. Daniel A. Herms

The Davey Tree Expert Company, Kent, OH, USA

Dr. Kenneth F. Raffa

Professor Dept. of Entomology & Beers-Bascom Professor of Conservation Biology, University of Wisconsin-Madison, 345 Russell Laboratories, Madison, WI 53706, USA

Dr. Kayla I. Perry

Department of Entomology, The Ohio State University, Columbus, OH, USA

---

### Deadline for manuscript submissions

closed (30 September 2019)

## About the Journal

### Message from the Editor-in-Chief

---

#### Editor-in-Chief

Prof. Dr. Brian T. Forschler

Department of Entomology, University of Georgia, 413 Biological  
Sciences Building, Athens, GA 30602-2603, USA

---

#### Author Benefits

##### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed,  
PMC, PubAg, and other databases.

##### Journal Rank:

JCR - Q1 (Entomology) / CiteScore - Q1 (Insect Science)

##### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 18.1 days after  
submission; acceptance to publication is undertaken in 2.9  
days (median values for papers published in this journal in  
the first half of 2025).
