

## Special Issue

# Enzymatic Investigations in Insect Research

### Message from the Guest Editor

Insects have a simplified division of organs, therefore, macromolecules such as enzymes play an important role in certain metabolic processes such as in the immune system, antioxidant system, digestion, and storage of harvested food. Insect enzymes may undergo a change in their activity as a result of the presence of pathogens, the administration of artificial diets, or the presence of toxic substances/pesticides. The aim of this Special Issue is to encourage scientists to publish results related to the insect's biology, physiology, behavior, and management, as well as their interactions with human societies, plants, and ecosystem services, using enzymatic activity as a parameter indicative of the physiology or the wellness of the insect. Researchers are invited to publish on themes of the immune system, antioxidant system, artificial diet effects, pathogen or pesticide effects, the environment–insect relationship read from an enzymatic perspective, insect digestion, fly, collection and storage of food, reproduction, nesting, and all other topics related to the involvement of enzymes in the physiological or pathological conditions of insects.

### Guest Editor

Dr. Simona Sagona

Department of Pharmacy, University of Pisa, Via Bonanno 6, 56126 Pisa, Italy

### Deadline for manuscript submissions

closed (29 February 2024)

## About the Journal

### Message from the Editor-in-Chief

---

#### Editor-in-Chief

Prof. Dr. Brian T. Forschler  
Department of Entomology, University of Georgia, 413 Biological  
Sciences Building, Athens, GA 30602-2603, USA

---

#### Author Benefits

##### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed,  
PMC, PubAg, and other databases.

##### Journal Rank:

JCR - Q1 (Entomology) / CiteScore - Q1 (Insect Science)

##### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 18.1 days after  
submission; acceptance to publication is undertaken in 2.9  
days (median values for papers published in this journal in  
the first half of 2025).
