

Special Issue

Invasive Arthropod Pests

Message from the Guest Editors

Invasive arthropod pests are a major threat to food production and environmental sustainability globally. The purpose of this issue is to invite authors to present proactive and innovative approaches to confronting invasive arthropod pests. We need to establish global scientific expertise to enable methods development and integration of efforts in order to mitigate the negative impacts associated with an increasing number of invasions. This Special Issue will address pests that impact major commodities, specialty crops, and natural landscapes. The primary purpose of this initiative is to create a forum to enhance the discussion of integrated, strategic, and front-line approaches to key invasive arthropod pests.

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Brian T. Forschler

Department of Entomology, University of Georgia, 413 Biological
Sciences Building, Athens, GA 30602-2603, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed,
PMC, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Entomology) / CiteScore - Q1 (Insect Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 18.1 days after
submission; acceptance to publication is undertaken in 2.9
days (median values for papers published in this journal in
the first half of 2025).
