

Special Issue

Non-*Apis* Pollinators and Global Change

Message from the Guest Editors

We are soliciting manuscript submissions that address non-*Apis* pollinator responses to a changing world. Specifically, we will publish manuscripts that address insect responses to climate change, landscape change (e.g., habitat loss, urbanization, etc.), agricultural intensification, natural disasters, and management practices in forestry and agriculture. Responses to global change include changes in species distribution, diversity and conservation, synchrony with floral resource availability and natural enemy abundance, and sustainability of managed pollinator populations or wild pollinators for pollination of crops, etc.

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Brian T. Forschler

Department of Entomology, University of Georgia, 413 Biological
Sciences Building, Athens, GA 30602-2603, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed,
PMC, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Entomology) / CiteScore - Q1 (Insect Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 18.1 days after
submission; acceptance to publication is undertaken in 2.9
days (median values for papers published in this journal in
the first half of 2025).
