

Special Issue

Advanced Techniques in Forensic Entomology

Message from the Guest Editors

Forensic entomology is an evolving field within forensic science and is gaining increasing importance in criminal investigations. There has been an influx of within this field in recent years, leading to exciting advances which will greatly advance the area. These advances include molecular analysis, cuticular hydrocarbon (CHC) analysis and micro-CT for species determination and CHC analysis and gene expression studies for aging. There has also been an increase in the number of papers utilizing methods that are typically applied in other disciplines, such as thermal imaging, toxicology and meteorological analysis, and these are significantly strengthening the research within forensic entomology. The field would also greatly benefit from applying stronger statistical confidence to datasets when presenting findings in court; thus, we are seeing more research that applies multivariate analysis and artificial intelligence. This Special Issue will showcase the advances in forensic entomology to improve this evidence type. Bridging the gap between academic research and reporting forensic entomology is something that we, as a research community, should address.

Guest Editors

Dr. Hannah Moore

Cranfield Forensic Institute, Cranfield University, Defence Academy of the United Kingdom, Shrivenham, Wiltshire SN6 8LA, UK

Dr. Amoret Whitaker

Faculty of Law, Crime and Justice, University of Winchester, Sparkford Road, Winchester, Hampshire SO22 4NR, UK

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Brian T. Forschler

Department of Entomology, University of Georgia, 413 Biological
Sciences Building, Athens, GA 30602-2603, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed,
PMC, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Entomology) / CiteScore - Q1 (Insect Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 18.1 days after
submission; acceptance to publication is undertaken in 2.9
days (median values for papers published in this journal in
the first half of 2025).
