University of Chicago, Chicago, IL  
60637, USA

Deadline for manuscript  
submissions:

**closed (15 September 2019)**

### Message from the Guest Editors

Dear Colleagues,

This special issue will publish the selected papers from the HBB 2019 Conference (Physics and Applications of High Brightness Beams, Rethimno, Crete, April 8–12, 2019). This proceedings issue will document the rapid developments achieved during the last several years in the high brightness beam community.

To learn more details about HBB 2019, please visit the conference website, <https://conferences.pa.ucla.edu/hbb-2019/index.html>.

Prof. Dr. Alessandro Cianchi

Prof. Dr. Young-Kee Kim

## Message from the Editor-in-Chief

The realization of dedicated instrumentation has always been a collateral aspect of experimental research. In addition, many groups dedicate efforts and resources solely to the development of new devices, sensors, equipment and large infrastructure, theoretical and numerical studies, and novel experimental methodologies. With *Instruments* we wish to address both established and emerging communities, also to favor the creation of innovative trans-disciplinary approaches. We see *Instruments* as an exciting high-impact journal that will soon hold a leading position in disseminating cutting edge scientific and technological research.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within  
ESCI (Web of Science), Scopus, Inspec, CAPlus / SciFinder, INSPIRE, and other databases.

**Rapid Publication:** manuscripts are peer-reviewed and a first decision is provided to authors approximately 22.8 days after submission; acceptance to publication is undertaken in 3.9 days (median values for papers published in this journal in the second half of 2025).
