# **Special Issue**

## Advances in Noble Element Detectors

## Message from the Guest Editor

This Special Issue of Instruments is intended to cover advances in noble liquid detectors across various fronts such as instrumentation, detector development, calibration including advances in techniques related to simulation, signal processing, and reconstruction. In addition to recent developments in these areas, review articles that provide an overview of the state of the art and summary of physics-driven technological needs for future experiments are also welcome.

## Guest Editor

Dr. Sowjanya Gollapinni Los Alamos National Laboratory (LANL), Los Alamos, NM 87545, USA

## About the Journal

## Message from the Editor-in-Chief

The realization of dedicated instrumentation has always been a collateral aspect of experimental research. In addition, many groups dedicate efforts and resources solely to the development of new devices, sensors, equipment and large infrastructure, theoretical and numerical studies, and novel experimental methodologies. With *Instruments* we wish to address both established and emerging communities, also to favor the creation of innovative trans-disciplinary approaches. We see *Instruments* as an exciting highimpact journal that will soon hold a leading position in disseminating cutting edge scientific and technological research.

### Editor-in-Chief

Prof. Dr. Antonio Ereditato Enrico Fermi Institute, The University of Chicago, Chicago, IL 60637, USA

### **Author Benefits**

### High Visibility:

indexed within ESCI (Web of Science), Scopus, Inspec, CAPlus / SciFinder, INSPIRE, and other databases.

### **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.1 days after submission; acceptance to publication is undertaken in 3.8 days (median values for papers published in this journal in the first half of 2025).

#### **Recognition of Reviewers:**

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
