

Special Issue

Selected Papers from ICAM2016 and ICI2016

Message from the Guest Editor

This Special Issue will select the papers related to invention/innovation advanced manufacturing, especially smart manufacturing, from ICI2016 (2016 2nd International Conference on Inventions, <http://sciforum.net/conference/ICI2016>) and ICAM 2016 (2016 International Conference on Advanced Manufacturing, <http://sciforum.net/conference/ICAM2016>). Smart manufacturing focuses on new and emerging technologies for industry 4.0. Papers with innovative ideas or research results in all aspects of advanced manufacture are also encouraged.

About the Journal

Message from the Editorial Board

The unique journal *Inventions* is different from all other journals. Many scholars spend their lives publishing research papers in many different journals, but most of these journals do not help scholars collate and analyze their results or assist in promoting them to a relevant industry. However, *Inventions* will help authors not only to publish their papers in the journal, but also to promote their research results to industry and assist them in realizing the purpose of technology transfer. In the future, *Inventions* will help authors to evaluate their technology license fees based on the valuation theory and approaches and also help authors to show their patents and technologies on a network transaction platform.
