

# Special Issue

## Recent Trends in Nanofluids III

### Message from the Guest Editors

This Special Issue follows the publications of "Recent Trends in Nanofluids" and "Recent Trends in Nanofluids – II", which presented 12 high-quality papers. This Special Issue invites you to contribute your original research work and review articles on "nanofluids", which either are advances of state-of-the-art mathematical methods or theoretical or experimental studies or extend the bounds of existing methodologies to new contributions to address current challenges. We hope that this issue will provide up-to-date findings to the readers and the scientific community for application to the benefit of the industrial sector. Potential topics include, but are not limited to, the following:

- Nanofluids;
- Particle shape effects;
- Hybrid nanofluids;
- Convective heat and mass transfer;
- Steady and unsteady flow problems;
- Particle–fluid motion;
- Thermodynamics;
- Physiological fluid phenomena in biological systems;
- Numerical and analytical simulations.

### Guest Editors

Dr. Muhammad Mubashir Bhatti

College of Mathematics and Systems Science, Shandong University of Science and Technology, Qingdao 266590, China

Dr. Sara I. Abdelsalam

Basic Science, Faculty of Engineering, The British University in Egypt, Al-Shorouk City, Cairo 11837, Egypt

### Deadline for manuscript submissions

closed (31 May 2022)

## About the Journal

### Message from the Editorial Board

The unique journal *Inventions* is different from all other journals. Many scholars spend their lives publishing research papers in many different journals, but most of these journals do not help scholars collate and analyze their results or assist in promoting them to a relevant industry. However, *Inventions* will help authors not only to publish their papers in the journal, but also to promote their research results to industry and assist them in realizing the purpose of technology transfer. In the future, *Inventions* will help authors to evaluate their technology license fees based on the valuation theory and approaches and also help authors to show their patents and technologies on a network transaction platform.

---

### Editors-in-Chief

Prof. Dr. Chien-Hung Liu

Department of Mechanical Engineering, National Chung Hsing University, 250 Kuo Kuang Rd., Taichung 402, Taiwan

Prof. Dr. Shouu-Jinn Chang

Department of Electrical Engineering, National Cheng Kung University, Tainan 701, Taiwan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, ESCI (Web of Science), Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.8 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
