Deadline for manuscript submissions:

closed (30 November 2023)

Message from the Guest Editors

Dear Colleagues,

The aim of this Special Issue is to explore the field of ischaemic heart disease with a critical focus on complex coronary artery disease, a setting increasingly encountered in clinical practice. Patients with multivessel disease, left main involvement, coronary chronic total occlusions, or severely reduced left ventricular ejection function, often excluded from large trials, pose daily decision-making challenges to both clinical cardiologists and interventionalists or cardiac surgeons. This issue aims to involve different specialists and researchers to provide the latest viewpoints on potential indications, planning strategies, and up-to-date interventional and surgical techniques in the aforementioned patient population.

Message from the Editor-in-Chief

The primary goal of the *Journal of Cardiovascular Development and Disease (JCDD)*, ISSN 2308-3425) is to provide cardiovascular scientists a platform to publish their work in a quick and efficient way. Topics can range from studies designed to decipher the events underlying early heart development to studies focusing on the origins of congenital and acquired heart disease. Papers submitted to *JCDD* undergo a fast, yet thorough, peer-review process. In this process, we will apply strict ethical policies and standards. *JCDD* guarantees fast dissemination of results to a large scientific audience.

Author Benefits

Open Access:— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), [CAPus / SciFinder](#), and other databases.

Journal Rank: JCR - Q2 (Cardiac and Cardiovascular Systems) / [CiteScore - Q2](#) (General Pharmacology, Toxicology and Pharmaceutics)
