Functional Morphology of the Developing and Mature Cardiovascular System

Guest Editor:

Prof. Dr. Jörg Männer

Group Cardio-Embryology, Institute of Anatomy and Cell Biology, UMG, Georg-August-University Goettingen, D-37075 Goettingen, Germany

Deadline for manuscript submissions:

closed (31 December 2018)

Message from the Guest Editor

Journal of Cardiovascular Development and Disease (JCDD) launches a Special Issue on functional morphology of the developing and mature cardiovascular system. During the past two decades, remarkable advances were made in our understanding of the genetic, molecular and backgrounds of normal and cellular cardiovascular functions during prenatal and postnatal life. Such knowledge has, for example, led to a replacement of some of the traditional, morphology-based classifications of human diseases by molecular-based classifications. Due to the remarkable achievements of "molecular medicine". morphology-based sciences may appear as old-fashioned disciplines, which nowadays may have only a very limited potential to provide new and clinically important insight into cardiovascular functions

Message from the Editor-in-Chief

The primary goal of the *Journal of Cardiovascular Development and Disease* (*JCDD*, ISSN 2308-3425) is to provide cardiovascular scientists a platform to publish their work in a quick and efficient way. Topics can range from studies designed to decipher the events underlying early heart development to studies focusing on the origins of congenital and acquired heart disease. Papers submitted to *JCDD* undergo a fast, yet thorough, peerreview process. In this process, we will apply strict ethical policies and standards. *JCDD* guarantees fast dissemination of results to a large scientific audience

Author Benefits

Open Access:— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed,

PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (Cardiac and Cardiovascular Systems) / CiteScore - Q2 (General

Pharmacology, Toxicology and Pharmaceutics)
