

Special Issue

Feature Papers in Imaging

Message from the Guest Editor

Cardiovascular imaging plays a crucial role at every step of the management of patients with cardiovascular disease, from diagnosis and risk stratification to therapeutic decision making and guidance. The *Journal of Cardiovascular Development and Disease* has therefore launched a Special Issue in recognition of its 10th anniversary, where original papers or reviews focusing on the additional value of standard or advanced imaging modalities in the management of the whole spectrum of cardiovascular disease are welcome. Particular attention will be given to the potential role of cardiovascular imaging in improving personalized medicine with patient-specific diagnosis and prognosis, and to the most novel imaging techniques and applications.

About the Journal

Message from the Editor-in-Chief

The primary goal of the *Journal of Cardiovascular Development and Disease* (JCDD, ISSN 2308-3425) is to provide cardiovascular scientists a platform to publish their work in a quick and efficient way. Topics can range from studies designed to decipher the events underlying early heart development to studies focusing on the origins of congenital and acquired heart disease. Papers submitted to JCDD undergo a fast, yet thorough, peer-review process. In this process, we will apply strict ethical policies and standards. JCDD guarantees fast dissemination of results to a large scientific audience

Editor-in-Chief

Prof. Dr. Thomas Brand

Kensington Campus, London SW7 2AZ, UK

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Cardiac and Cardiovascular Systems) /
CiteScore - Q2 (General Pharmacology, Toxicology and
Pharmaceutics)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 28.8 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
