

Special Issue

Current Practice in Cardiac Imaging

Message from the Guest Editors

The *Journal of Cardiovascular Development and Disease* is launching a Special Issue to focus on current cardiac imaging practice. In this Special Issue, we will highlight some of the recent developments in cardiac imaging, placing a particular focus on cardiac CT and MRI and their applications in daily practice. Cardiac imaging, in evolving quickly and continuously in a way that generates new technologies, benefits patients by providing images of higher resolution with shorter scan time and reduced radiation doses. New cardiac MR techniques may provide new insights into current imaging diagnosis techniques for use in assessments of cardiac diseases. It is always challenging to become familiar with current imaging technologies. In this Special Issue, entitled “Current Practice in Cardiac Imaging”, we welcome you to contribute a research paper or review article on any aspect of this topic, whether discussing novel imaging techniques or novel clinical applications of old techniques. This is an excellent opportunity for groups to contribute to the field of cardiac imaging.

About the Journal

Message from the Editor-in-Chief

The primary goal of the *Journal of Cardiovascular Development and Disease* (JCDD, ISSN 2308-3425) is to provide cardiovascular scientists a platform to publish their work in a quick and efficient way. Topics can range from studies designed to decipher the events underlying early heart development to studies focusing on the origins of congenital and acquired heart disease. Papers submitted to *JCDD* undergo a fast, yet thorough, peer-review process. In this process, we will apply strict ethical policies and standards. *JCDD* guarantees fast dissemination of results to a large scientific audience.

Editor-in-Chief

Prof. Dr. Thomas Brand
National Heart & Lung Institute, Imperial College London, South
Kensington Campus, London SW7 2AZ, UK

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Cardiac and Cardiovascular Systems) /
CiteScore - Q2 (General Pharmacology, Toxicology and
Pharmaceutics)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 24.7 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the second half of 2025).
