Cardiovascular Disease Epidemiology: A Themed Issue in Honor of Dr. Alessandro Menotti on the Occasion of His 90th Birthday

Message from the Guest Editors

The aim of this special issue is to honor Professor Alessandro Menotti on the occasion of his 90th birthdate in 2024. He was the youngest among the first generation of researchers involved in the Seven Countries Study (SCS) under the leadership of late Professor Ancel Keys. After 60 years of continued efforts worldwide he was the eldest of the third generation of SCS researchers and a supervisor of the study along a constant event coder for this reputed international investigation that set the foundation of cardiovascular epidemiology of heart diseases. https://www.mdpi.com/journal/jcdd/special_issues/67KF88P2R7 We encourage all colleagues and friends, but also deeply involved Researchers worldwide who devoted interest in cardiovascular epidemiology and had the opportunity to read and appreciate his important contributions in the field to contribute original scientific contributions and review articles or focused points of view to be grouped and published, after formal review, to form this special issue.

About the Journal

Message from the Editor-in-Chief

The primary goal of the *Journal of Cardiovascular Development and Disease* (JCDD, ISSN 2308-3425) is to provide cardiovascular scientists a platform to publish their work in a quick and efficient way. Topics can range from studies designed to decipher the events underlying early heart development to studies focusing on the origins of congenital and acquired heart disease. Papers submitted to JCDD undergo a fast, yet thorough, peer-review process. In this process, we will apply strict ethical policies and standards. JCDD guarantees fast dissemination of results to a large scientific audience

Editor-in-Chief
