Multimodal Cardiac Imaging: New and Controversial Insights

Message from the Guest Editors

We are pleased to announce the forthcoming Special Issue of the *Journal of Cardiovascular Development and Disease*, titled “Multimodal Cardiac Imaging: New and Controversial Insights”. This Special Issue will focus on original research and scholarly articles addressing novel or debated topics in cardiac magnetic resonance imaging and cardiac computed tomography. These imaging modalities are crucial in the diagnosis, management, and treatment of various cardiovascular diseases. This Special Issue aims to present new insights, innovations, and controversial topics related to their use, including advancements in imaging technology, diagnostic accuracy, and clinical outcomes. It will also address the challenges and limitations of current approaches and examine the potential for future improvements and integration of multimodal imaging techniques. Submissions are invited from researchers and clinicians working in these fields.

About the Journal

Message from the Editor-in-Chief

The primary goal of the *Journal of Cardiovascular Development and Disease* (JCDD, ISSN 2308-3425) is to provide cardiovascular scientists a platform to publish their work in a quick and efficient way. Topics can range from studies designed to decipher the events underlying early heart development to studies focusing on the origins of congenital and acquired heart disease. Papers submitted to JCDD undergo a fast, yet thorough, peer-review process. In this process, we will apply strict ethical policies and standards. JCDD guarantees fast dissemination of results to a large scientific audience

Editor-in-Chief

Prof. Dr. Thomas Brand
National Heart & Lung Institute, Imperial College London, South
Kensington Campus, London SW7 2AZ, UK

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPLus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Cardiac and Cardiovascular Systems) /
CiteScore - Q2 (General Pharmacology, Toxicology and
Pharmaceutics)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 28.8 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
