

Special Issue

Feature Review Papers in Acquired Cardiovascular Disease

Message from the Guest Editor

The knowledge on the pathophysiology, diagnosis, and treatment of acquired cardiovascular diseases is continuously evolving at a rapid pace. This makes that health professionals often find it difficult to stay up to date, not only about the most recent advances in general cardiovascular sciences but also about those related to their specific areas of interest. To help mitigate this, JCDD is launching the Special Issue 'Feature Review Papers in Acquired Cardiovascular Disease'. This issue is aimed to provide the readers with a summary of the most significant contributions that have appeared recently in this field. Prestigious scientists and clinicians will be invited to submit high-quality review papers on the different areas of acquired cardiovascular disease, from bench to bedside.

About the Journal

Message from the Editor-in-Chief

The primary goal of the *Journal of Cardiovascular Development and Disease* (JCDD, ISSN 2308-3425) is to provide cardiovascular scientists a platform to publish their work in a quick and efficient way. Topics can range from studies designed to decipher the events underlying early heart development to studies focusing on the origins of congenital and acquired heart disease. Papers submitted to JCDD undergo a fast, yet thorough, peer-review process. In this process, we will apply strict ethical policies and standards. JCDD guarantees fast dissemination of results to a large scientific audience

Editor-in-Chief

Prof. Dr. Thomas Brand

Kensington Campus, London SW7 2AZ, UK

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Cardiac and Cardiovascular Systems) /
CiteScore - Q2 (General Pharmacology, Toxicology and
Pharmaceutics)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 28.8 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
