

Special Issue

Women's Cardiovascular Disease

Message from the Guest Editors

Despite the fact that cardiovascular disease is the leading cause of death among women, gender-related differences in pathophysiological mechanisms, disease presentation, and comorbidities still remain under-represented in cardiovascular clinical research. Additionally, the gender gap in cardiology is not exclusive to female patients but substantially impacts the cardiology profession, where women continue to be under-represented in leadership positions. This Special Issue welcomes contributions, in the form of both original research articles and high-quality reviews, in the field of women and cardiac disease to improve the diagnosis and treatment of female patients as well as to encourage the training of female cardiologists and promote women's inclusion in leadership.

About the Journal

Message from the Editor-in-Chief

The primary goal of the *Journal of Cardiovascular Development and Disease* (JCDD, ISSN 2308-3425) is to provide cardiovascular scientists a platform to publish their work in a quick and efficient way. Topics can range from studies designed to decipher the events underlying early heart development to studies focusing on the origins of congenital and acquired heart disease. Papers submitted to JCDD undergo a fast, yet thorough, peer-review process. In this process, we will apply strict ethical policies and standards. JCDD guarantees fast dissemination of results to a large scientific audience

Editor-in-Chief

Prof. Dr. Thomas Brand
National Heart & Lung Institute, Imperial College London, South

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Cardiac and Cardiovascular Systems) /
CiteScore - Q2 (General Pharmacology, Toxicology and
Pharmaceutics)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 28.8 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
