

Special Issue

Diagnosis, Treatment, and Genetics of Cardiomyopathy

Message from the Guest Editors

“Diagnosis, Treatment, and Genetics of Cardiomyopathy” is a Special Issue of the Journal of Cardiovascular Development and Disease (JCDD) that focuses on the comprehensive understanding and management of cardiomyopathy, a complex group of heart muscle diseases.

Within this Special Issue, experts contribute original research articles, review papers, and case studies that delve into various topics related to cardiomyopathy. The aim is to provide a comprehensive overview of the identification and classification of different subtypes, novel diagnostic techniques, advances in treatment strategies, and insights into the genetic factors contributing to the development and progression of the disease.

Moreover, this Special Issue features discussions on emerging therapies, clinical trials, and translational research, fostering the translation of scientific discoveries into practical applications in clinical settings. By disseminating cutting-edge research findings and evidence-based practices, the Special Issue aims to advance the understanding of cardiomyopathy and improve patient outcomes.

About the Journal

Message from the Editor-in-Chief

The primary goal of the *Journal of Cardiovascular Development and Disease* (JCDD, ISSN 2308-3425) is to provide cardiovascular scientists a platform to publish their work in a quick and efficient way. Topics can range from studies designed to decipher the events underlying early heart development to studies focusing on the origins of congenital and acquired heart disease. Papers submitted to *JCDD* undergo a fast, yet thorough, peer-review process. In this process, we will apply strict ethical policies and standards. *JCDD* guarantees fast dissemination of results to a large scientific audience.

Editor-in-Chief

Prof. Dr. Thomas Brand
National Heart & Lung Institute, Imperial College London, South
Kensington Campus, London SW7 2AZ, UK

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Cardiac and Cardiovascular Systems) /
CiteScore - Q2 (General Pharmacology, Toxicology and
Pharmaceutics)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 24.7 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the second half of 2025).
