

Special Issue

Feature Review Papers in Stroke and Cerebrovascular Disease

Message from the Guest Editor

This Issue, we will highlight some of the recent developments in the pathophysiology, diagnosis and management of transient ischaemic attack, ischaemic stroke, intracerebral and subarachnoid haemorrhage and cerebral venous thrombosis. These topics could include genetics, risk factors, epidemiology, imaging and other diagnostic tools, as well as various treatment modalities in the acute, subacute, and rehabilitative phases as well as in the long-term. For this Special issue, entitled “Reviews in Stroke and Cerebrovascular Disease”, we invite you to contribute review articles in these and related areas to assist clinicians treating patients with strokes, as well as stroke researchers., as they strive to better manage their patients. Additionally, any new impactful knowledge that may reduce the risk, morbidity and mortality of this increasingly prevalent illness that is placing tremendous burdens on stroke survivors, family, community healthcare and social systems is welcome.

About the Journal

Message from the Editor-in-Chief

The primary goal of the *Journal of Cardiovascular Development and Disease* (JCDD, ISSN 2308-3425) is to provide cardiovascular scientists a platform to publish their work in a quick and efficient way. Topics can range from studies designed to decipher the events underlying early heart development to studies focusing on the origins of congenital and acquired heart disease. Papers submitted to JCDD undergo a fast, yet thorough, peer-review process. In this process, we will apply strict ethical policies and standards. JCDD guarantees fast dissemination of results to a large scientific audience

Editor-in-Chief

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPLus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Cardiac and Cardiovascular Systems) /
CiteScore - Q2 (General Pharmacology, Toxicology and
Pharmaceutics)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 28.8 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
