Hypertrophic Cardiomyopathy: Pathogenesis, Diagnosis and Management

Message from the Guest Editors

The journal *JCDD* is currently running a Special Issue entitled "Hypertrophic Cardiomyopathy: Pathogenesis, Diagnosis and Management". Hypertrophic cardiomyopathy (HCM) diagnosis and care represent the culmination of years of scientific investigation and medical expertise, in which effective treatment strategies now result in close to similar longevity of the general population. The aim of this Special Issue is to present research related to HCM such as genetic diagnosis of HCM, the debate on population screening of HCM, cardio-imaging and its role in sudden cardiac death risk stratification of HCM, the mechanism of ventricular obstruction in HCM, upcoming investigational medical therapies in HCM and current HCM surgical practices for ventricular obstruction.

About the Journal

Message from the Editor-in-Chief

The primary goal of the *Journal of Cardiovascular Development and Disease* (JCDD, ISSN 2308-3425) is to provide cardiovascular scientists a platform to publish their work in a quick and efficient way. Topics can range from studies designed to decipher the events underlying early heart development to studies focusing on the origins of congenital and acquired heart disease. Papers submitted to JCDD undergo a fast, yet thorough, peer-review process. In this process, we will apply strict ethical policies and standards. JCDD guarantees fast dissemination of results to a large scientific audience

Editor-in-Chief

Prof. Dr. Thomas Brand
National Heart & Lung Institute, Imperial College London, South
Kensington Campus, London SW7 2AZ, UK

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Cardiac and Cardiovascular Systems) /
CiteScore - Q2 (General Pharmacology, Toxicology and
Pharmaceutics)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 28.8 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
