

Special Issue

Updates on Atrio-Ventricular Node Anatomy and Physiology and on AVNRTs Circuit

Message from the Guest Editors

This special issue delves into the latest advancements in our understanding of the anatomy and physiology of the atrioventricular (AV) node, alongside a comprehensive exploration of atrioventricular nodal reentrant tachycardias (AVNRTs). With contributions from leading experts, the articles provide insights into the intricate structure and function of the AV node, its role in cardiac conduction, and the mechanisms underlying AVNRTs. We aim to enhance the reader's knowledge of both clinical implications and emerging therapeutic strategies, fostering a deeper understanding of arrhythmogenesis and potential interventions.

About the Journal

Message from the Editor-in-Chief

The primary goal of the *Journal of Cardiovascular Development and Disease* (*JCDD*, ISSN 2308-3425) is to provide cardiovascular scientists a platform to publish their work in a quick and efficient way. Topics can range from studies designed to decipher the events underlying early heart development to studies focusing on the origins of congenital and acquired heart disease. Papers submitted to *JCDD* undergo a fast, yet thorough, peer-review process. In this process, we will apply strict ethical policies and standards. *JCDD* guarantees fast dissemination of results to a large scientific audience.

Editor-in-Chief

Prof. Dr. Thomas Brand
National Heart & Lung Institute, Imperial College London, South

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Cardiac and Cardiovascular Systems) /
CiteScore - Q2 (General Pharmacology, Toxicology and
Pharmaceutics)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 24.7 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the second half of 2025).
