submissions:

20 July 2024

Message from the Guest Editors

Dear Colleagues,

Cardiac pacing and electrophysiology focuses on the study, diagnosis, and treatment of heart rhythm disorders. This field is rapidly progressing, with significant advances in both device implantation and catheter ablation. Advanced technologies, such as remote monitoring, leadless pacing systems, and catheter-based interventions, have greatly improved patient outcomes and reduced complications. Key aspects of cardiac pacing and electrophysiology include arrhythmia management, device programming, lead extraction, and risk stratification. With ongoing research and advancements in this field, the development of innovative therapies and improved patient care remains a priority.

This Special Issue aims to collect original articles and reviews that improve knowledge in the field of cardiac pacing and electrophysiology. We look forward to receiving your contributions to this Special Issue.

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
