Message from the Guest Editor

Dear Colleagues,

The early diagnosis of frontotemporal lobar degeneration (FTLD) and dementia with Lewy bodies (DLB) remains challenging as their clinical and pathological features overlap with Alzheimer's disease and other types of dementia. The identification of clinical biomarkers is essential to improve the accuracy of diagnosis and the development of disease-modifying therapies.

This Special Issue of the *Journal of Clinical Medicine* aims to gather cutting-edge research to enhance our understanding of FTLD and DLB and pave the way to novel diagnostic and therapeutic strategies.

The following aspects of FTLD and DLB will be covered:

- Clinical presentation;
- Diagnosis;
- Neuropathology;
- Neuroimaging;
- Biomarkers;
- Management;
- Disease-modifying therapies.

For more information, please click [here](#). We look forward to receiving your original research and review articles.

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Medicine, General & Internal*) / CiteScore - Q1 (*General Medicine*)
