Deadline for manuscript
submissions:

25 July 2024

Message from the Guest Editor

Dear Colleagues,

The world of urologic oncology is rapidly evolving. Within the realm of bladder, prostate, kidney, testis and penile cancers, new treatment paradigms, medications and surgical modifications are evolving in parallel with progressive research on these topics. For example, in bladder cancer, novel intravesical and targeted therapies are gaining traction. For prostate cancer, advanced imaging and less invasive focal therapy has been increasingly utilized. These examples just begin to scratch the surface of the recent developments in our field. For this Special Issue, we encourage authors to submit papers on the recent clinical updates on urologic cancer of their interest.

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
