Message from the Guest Editor

Dear Colleagues,

This Special Issue aims to provide a comprehensive overview of the latest clinical advances in lumbar and spine surgeries. Lumbar and spine disorders are prevalent conditions that can significantly impact patients' quality of life. Traditional surgical approaches have been effective, but there is a constant need for improvement to minimize invasiveness, reduce complications and enhance patient outcomes. This Special Issue will focus on emerging techniques and technologies in the field, including minimally invasive procedures, advanced imaging modalities, innovative surgical instruments and evidence-based treatment strategies. By highlighting these clinical advances, this Special Issue seeks to contribute to the refinement of surgical techniques, optimize patient care and improve long-term outcomes for individuals with lumbar and spine disorders.

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPUS / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Medicine, General & Internal*) / CiteScore - Q1 (*General Medicine*)
