Deadline for manuscript
submissions:

25 June 2024

Message from the Guest Editors

Dear Colleagues,

Minimally invasive surgery with and without robotic assistance has revolutionized modern day surgery. This revolution started with gynecologic surgery and now has expanded to almost all the disciplines of surgery. This section of the journal addresses minimally invasive and robotic surgical management of the most common benign and malignant disorders that affect millions of women around the world. For example, endometriosis, which is a whole-body disease, will be addressed in this Special Issue. Endometriosis could cause pain, infertility, and organ dysfunction. Authors will write about how endometriosis causes pain and infertility, and its management and outcomes. Additionally, extragenital endometriosis involving the bowel, bladder, ureter, diaphragm, thorax, etc. will be addressed with outcomes. Minimally invasive gynecology with robotic assistance for the management of GYN malignancy will be addressed with outcomes.

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
